Dear Keith,

What a privilege it is for **Gilda's Club Metro Detroit** to be involved in, and support unconditionally your project, "*Those on the Frontlines of Cancer.*"

At Gilda's Club, women, men and children come through our doors each day seeking ways to ease the difficult path cancer places us. The complexity lies in that each path is different, unique and filled with challenge.

The work you continue to do with Gilda's Club helps bring transparency, love and hope to so many courageous people who may not just yet, know how strong they really are.

Following a diagnosis, there are so many unknowns – family dynamics play a large role, access to care and care choices are among the myriad of complex components we face following a cancer diagnosis.

To ensure no one faces cancer alone, Gilda's Club relies on partner organizations and partners like you, to create an umbrella of care, understanding and compassion.

An educated and empowered patient and family leads to better outcomes. By digging in to new discoveries, tried and true remedies and the roadblocks to care, we can only be opening doors to a healthier community. Recognizing that cancer impacts everyone around us is a bold, important approach.

The exploration of these important issues will be beautifully captured through your empathy, care and curiosity, Keith. We are honored to be a part of your work.

Warm regards,

A handwritten signature in cursive that reads 'Laura'.

Laura Varon Brown
Executive Director & CEO

Cancer support for the whole family, the whole time.
