Wixom, MI 48393

Dear Keith,

Ovarian cancer is the deadliest of gynecologic cancers because the symptoms are subtle. It's difficult for survivors to find resources and people that can relate to their journey. The Michigan Ovarian Cancer Alliance is excited for your project, "Those on the Frontlines of Cancer" and pleased to support your work.

The survival rate for ovarian cancer has barely improved since the "War on Cancer" was declared over 40 years ago. Due to the lack of an early detection test, over 80% of patients are diagnosed at a late stage. For these reasons, increased awareness and advocacy are critical.

"Those on the Frontlines of Cancer" will show that cancer does not discriminate and impacts people of all ages and race. The Michigan Ovarian Cancer Alliance is honored to be a part of your work and look forward to providing you with the perspective of ovarian cancer patients.

Sincerely,

Pam Dahlmann
